

Let's Transform Lives, Together

For over 40 years, McClendon Center has provided critical programs and services to support and empower the most vulnerable in our community on the journey to becoming their best selves. On an annual basis, we work directly with over 4,500 individuals recovering from mental illness.

"Coming to McClendon makes me whole. To be an inspiration to my peers... to come here and take the saddest person at the table and make them laugh and smile, that's what I want. I'm always going to make you laugh. That's just me. I've got to keep laughing in here [pointing to his heart]."

- Frank P.

Programs & Services

Our culturally-competent care leaves no one behind.

At McClendon Center, we employ a whole person-centered approach to mental health treatment that addresses an array of social issues: housing and food insecurity, access to quality health care, prejudice and lack of social interaction.

Every day, we support and empower people on the journey to becoming their best selves.

Core Services

Clients and professional staff work together to determine diagnoses, needs, treatment plans, and goals. By collaborating on their treatment plans, clients are empowered to build relationships with staff and take an active role in the recovery process.

Patient Discharge Coordination

PDC staff help to ensure a seamless transition from inpatient psychiatric hospitalization to discharge and outpatient follow-up care.

Medication Management

Each year, we provide thousands of critically important medication management visits. We assess clients' psychiatric symptoms and prescribe medications to stabilize their illnesses.

Therapy & Counseling

We offer both individual and group psychotherapy services that help clients achieve their goals, overcome challenges and develop strategies for coping with symptoms and stressors.

Counseling at Dupont

CAD provides affordable individual, couples, and group psychotherapy services to those covered by medical insurance providers.

Day Program

The Day Program focuses on building coping and life skills, individual empowerment, health and wellness, trauma recovery, and overcoming dual diagnoses, all within a supportive social setting that promotes human connection.

We offer structured daily activities, group sessions on mental health awareness, substance use & recovery, and health education, and expressive therapy groups offering educational games, fun activities and special events.

Integrated Care Coordination

In collaboration with AmeriHealth, we offer Behavioral Health Engagement Services aimed at finding people in the community who have been lost to treatment. Post Emergency Evaluation Services provide post-discharge assistance to those who recently visited a hospital emergency department and have behavioral health concerns.

Community Support

Applying for benefits and navigating the mental health system are difficult tasks that clients usually need assistance with. Our Community Support Specialists meet regularly with clients to provide case management services that keep them on track with their treatment plans.

Art of Transformation

**SPONSORSHIP
INFORMATION**

📅 SEPT. 18, 2025 | 📍 THE TRUE REFORMER BUILDING; 1200 U STREET NW, WASHINGTON DC

All proceeds directly support McClendon Center's work to improve the health and well-being of DC's most vulnerable residents--people who are economically disadvantaged and struggling with mental health issues.
